

# VANSH MIRANI

B.Tech CSE Student | Software Development | Full-Stack Web Development | React.js | Node.js | JavaScript | Java | Python  
Ahmedabad, Gujarat | +91 9725500272 | miranivansh05@gmail.com | linkedin.com/in/vansh-mirani | github.com/VanshMirani

## PROFESSIONAL SUMMARY

Computer Science Engineering student with hands-on experience in software development, full-stack web applications, and practical project-based learning. Skilled in JavaScript, React.js, Node.js, Express.js, MongoDB, Java, Python, REST API development, database concepts, authentication, CRUD workflows, and responsive UI design. Built projects involving inventory management, expense tracking, event booking, asset/resource management, dashboards, API integration, and database-driven workflows. Strong foundation in OOP, debugging, problem solving, Git/GitHub, and SDLC fundamentals.

## TECHNICAL SKILLS

**Programming Languages:** JavaScript, Java, Python, TypeScript Basics

**Frontend:** HTML5, CSS3, React.js, Tailwind CSS Basics, Bootstrap Basics, Responsive Web Design, Component-Based UI

**Backend:** Node.js, Express.js, REST API Development, Authentication Basics, JWT Basics

**Databases & ORM:** MongoDB, MongoDB Atlas, Mongoose Basics, MySQL Basics, PostgreSQL Basics, Prisma Basics, DBMS Concepts

**Tools and Platforms:** Git, GitHub, VS Code, Vite, Postman, Vercel Basics, Docker Compose Basics

**Testing & Quality Basics:** ESLint Basics, Jest Basics, Supertest Basics

**Core Concepts:** Object-Oriented Programming, Data Structures, CRUD Operations, API Integration, Debugging, Problem Solving, SDLC Fundamentals, Application Flow Understanding

## PROJECTS

### AssetFlow - MERN Enterprise Asset & Resource Management System

**Tech Stack:** React.js, Vite, JavaScript, Bootstrap, Chart.js, Node.js, Express.js, MongoDB Atlas, Mongoose, JWT, Git, GitHub | **Repository:**

[github.com/VanshMirani/odoo-hackathon-26](https://github.com/VanshMirani/odoo-hackathon-26)

- Developed a MERN-based asset and resource management system to track assets, allocations, transfers, returns, bookings, maintenance, audits, notifications, and reports.
- Implemented role-based workflows, authentication, asset registration, QR-based asset tracking, allocation history, maintenance records, and dashboard modules.
- Built MongoDB-backed dashboards, report filters, Chart.js visualizations, activity logs, and CSV export workflows.

### EventFlow - Full-Stack Event Management Platform

**Tech Stack:** React.js, Vite, JavaScript, Tailwind CSS, Node.js, Express.js, PostgreSQL, Prisma, JWT, Razorpay, Git, GitHub | **Repository:**

[github.com/VanshMirani/event-management-platform](https://github.com/VanshMirani/event-management-platform)

- Built a full-stack event management platform with user registration, event browsing, ticket booking, Razorpay payment flow, QR ticket generation, and admin check-in.
- Implemented admin features for event management, ticket type management, booking/payment tracking, QR verification, and duplicate check-in prevention.
- Integrated PostgreSQL with Prisma ORM, JWT authentication, httpOnly cookies, backend validation, QR code generation, and PDF ticket download workflows.

### Expense Tracker - MERN Expense Tracking Application

**Tech Stack:** React.js, JavaScript, HTML5, CSS3, Node.js, Express.js, MongoDB, Git, GitHub | **Repository:** [github.com/VanshMirani/Expense-Tracker](https://github.com/VanshMirani/Expense-Tracker)

- Developed a full-stack expense tracking application to record, categorize, update, delete, and manage daily expenses.
- Implemented user registration, secure login, protected user data, session handling, transaction history, and expense category workflows.
- Built a responsive dashboard with spending overview, expense charts, transaction records, and user-friendly navigation.

### CoreInventory - Full-Stack Inventory Management System

**Tech Stack:** HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, Git, GitHub | **Repository:** [github.com/VanshMirani/CoreInventory](https://github.com/VanshMirani/CoreInventory)

- Developed a full-stack inventory management platform to manage products, stock levels, inventory records, and centralized dashboard workflows.
- Implemented authentication, protected dashboard access, product management, stock updates, REST API integration, and MongoDB-based data handling.
- Collaborated in a hackathon team on dashboard design, UI improvements, backend integration, debugging, and Git/GitHub workflow.

## EDUCATION

**Bachelor of Technology in Computer Science Engineering** - Indus University, Ahmedabad | 2023 - 2027

**Relevant Coursework:** Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Software Engineering, Computer Networks

## INTERNSHIP / TRAINING

**React JS Internship Program** - Sparks To Ideas | 04 Jun 2025 - 04 Jul 2025

- Completed practical React.js training with exposure to component-based UI development, JavaScript fundamentals, responsive design, and debugging.
- Practiced reusable components, frontend implementation, UI development, application flow understanding, and project-based web development.

## CERTIFICATIONS

**Innovate with Full-Stack: A Comprehensive Journey from Frontend to Backend** - Indus University, Department of CSE - IITE | 16 Dec 2024 - 28 Dec 2024

- Completed hands-on training in frontend, backend, database integration, debugging, application flow, and full-stack development.

**Artificial Intelligence Internship** - Indus University, Department of CSE - IITE | 04 Jun 2024 - 20 Jun 2024

- Learned AI and machine learning fundamentals with exposure to Python, analytical thinking, model implementation basics, and real-world problem solving.

## ACHIEVEMENTS AND ACTIVITIES

- Participated in Smart India Hackathon 2025 internal round at Indus University, Ahmedabad.
- Participated in Odoo x Indus Hackathon and contributed to full-stack project development, dashboard design, backend integration, and Git/GitHub workflow.
- Built and maintained public GitHub repositories covering MERN applications, event management, asset/resource management, inventory systems, Java projects, and interactive frontend websites.
- Practiced full-stack development concepts including authentication, CRUD workflows, REST APIs, database integration, responsive UI, debugging, and project documentation.

## SOFT SKILLS AND LANGUAGES

**Soft Skills:** Analytical Thinking, Problem Solving, Debugging Approach, Teamwork, Communication, Attention to Detail, Adaptability, Willingness to Learn  
**Languages:** English, Hindi, Gujarati
