

# VANSH MIRANI

B.Tech CSE Student | Aspiring Software Developer | Web Development | Full Stack Development | JavaScript | Java | Python  
Ahmedabad, Gujarat | +91 9725500272 | miranivansh05@gmail.com | linkedin.com/in/vansh-mirani | github.com/VanshMirani

## PROFESSIONAL SUMMARY

Computer Science Engineering student with hands-on experience in software development, web development, and full-stack projects. Skilled in JavaScript, React.js, Node.js, Express.js, MongoDB, Java, Python, HTML, CSS, REST API basics, and database concepts. Built projects involving authentication, CRUD workflows, dashboards, responsive UI, user interaction, and application flow. Strong foundation in Object-Oriented Programming, debugging, problem solving, and SDLC fundamentals, seeking software or web development internship roles.

## TECHNICAL SKILLS

**Programming Languages:** Python, Java, JavaScript, TypeScript Basics

**Frontend:** HTML, CSS, React.js, Responsive Web Design, Tailwind CSS Basics

**Backend:** Node.js, Express.js, REST API Basics

**Database:** MongoDB, Database Management System Concepts

**Tools and Platforms:** Git, GitHub, VS Code, Vercel, Postman Basics, Windows, Linux Basics

**Core Concepts:** Object-Oriented Programming, Data Structures, SDLC Fundamentals, Debugging, Problem Solving, Application Flow Understanding

## PROJECTS

### CoreInventory - Full-Stack Inventory Management System

**Tech Stack:** HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, Git, GitHub | **Repository:** [github.com/VanshMirani/CoreInventory](https://github.com/VanshMirani/CoreInventory)

- Developed a full-stack inventory management platform to manage products, stock levels, and inventory records through a centralized dashboard.
- Implemented user authentication, protected dashboard access, product management, inventory tracking, and stock update workflows.
- Collaborated in the Odoo x Indus Hackathon team project on dashboard design, UI improvements, backend integration, REST APIs, database management, and Git/GitHub workflow.

### Expense Tracker - MERN Expense Tracking Application

**Tech Stack:** React.js, JavaScript, HTML, CSS, Node.js, Express.js, MongoDB, Git, GitHub | **Repository:** [github.com/VanshMirani/Expense-Tracker](https://github.com/VanshMirani/Expense-Tracker)

- Developed a MERN-based expense tracking application to help users record, categorize, and manage daily expenses.
- Implemented registration, secure login, add/update/delete expenses, transaction history, protected user data, expense categories, and a responsive dashboard with charts.

### QuizApplication - Java-Based Quiz Application

**Tech Stack:** Java, Object-Oriented Programming | **Repository:** [github.com/VanshMirani/QuizApplication](https://github.com/VanshMirani/QuizApplication)

- Built a Java quiz application with multiple-choice questions, timer functionality, user input handling, answer evaluation, and final score calculation.
- Applied OOP concepts including classes, objects, arrays, methods, loops, and conditional statements to strengthen Java programming and debugging skills.

### Birthday Surprise Website - Interactive Frontend Website

**Tech Stack:** HTML5, CSS3, JavaScript | **Repository:** [github.com/VanshMirani/birthday-website](https://github.com/VanshMirani/birthday-website)

- Designed and developed an interactive birthday celebration website with animated countdown, celebration screens, personalized messages, memories section, and final wish page.
- Created a responsive UI using JavaScript event handling, CSS animations, transitions, UI design, and structured frontend development practices.

## EDUCATION

**Bachelor of Technology in Computer Science Engineering** - Indus University, Ahmedabad | 2023 - 2027

**Relevant Coursework:** Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Software Engineering, Computer Networks

**Senior Secondary, Class XII:** Shiv Ashish School, Ahmedabad, GSEB | 2023 | 57.53%

**Secondary, Class X:** Shiv Ashish School, Ahmedabad, GSEB | 2021 | 83.16%

## INTERNSHIP / TRAINING

**React JS Internship Program** - Sparks To Ideas | 04 Jun 2025 - 04 Jul 2025

- Completed practical React JS internship training with exposure to frontend development, component-based UI, JavaScript fundamentals, and debugging.
- Practiced responsive design, UI development, application flow understanding, and project-based web development.

## CERTIFICATIONS

**Innovate with Full-Stack: A Comprehensive Journey from Frontend to Backend** - Indus University, Department of CSE - IITE | 16 Dec 2024 - 28 Dec 2024

- Completed hands-on training in frontend, backend, database, integration practices, debugging, application flow, and full-stack development.

**Artificial Intelligence Internship** - Indus University, Department of CSE - IITE | 04 Jun 2024 - 20 Jun 2024

- Learned AI and machine learning fundamentals, practical model implementation, real-world AI applications, Python, analytical thinking, and problem solving.

## ACHIEVEMENTS AND ACTIVITIES

- Participated in Smart India Hackathon 2025 internal round held on 26 Sep 2025 at Indus University, Ahmedabad.
- Participated in Odoo x Indus Hackathon and worked on CoreInventory as a collaborative full-stack development project.
- Maintained public GitHub repositories covering full-stack, frontend, Java, and JavaScript project work.

## SOFT SKILLS AND LANGUAGES

**Soft Skills:** Analytical Thinking, Problem Solving, Debugging Approach, Teamwork, Communication, Attention to Detail, Adaptability

**Languages:** English, Hindi, Gujarati
